GRT Radisson Blu Resort

Project Profile

The Radisson Hotel Group recently celebrated 25 years in India. The company's long-term vision is to be the hotel of choice for guests, owners, and talent. The Radisson Blu Hotel in the Chennai City center offers well-equipped accommodations with excellent corporate and leisure opportunities for all guests.

Authorized Dealer [Alaska Engineering Solutions Pvt. Ltd.](https://alaska-engineering.com) installed a Reliable Controls system at the Radisson Blu Temple Bay Resort in Mahabalipuram, Chennai. The Reliable Controls building automation system helps the facility team control and monitor fifteen air handling units, two chillers, three fresh air fans, and three kitchen exhaust fans. Phase 2 of the building automation system has been integrated with the Reliable Controls system installed during Phase 1. The facility team has also been provided with reports generated to illustrate the system's effectiveness.
